REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The instant invention claims a color metallic pigment comprising metal particles and a single-layer or multilayer coat covering the surface of each metal particle and further comprising a molybdenum-phosphorus coat having specific composition. The closest prior art reference that relate to the claimed invention are Schmid'467, '738, '486, Asada'165, Hashizume'334, '911, '886, '283 and Yadav/822. The prior art teaches that it is known in the art to make and use coated color metallic pigments. However, the prior art does not teach or suggest pigments having structure and composition as in the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to leszek b. kiliman whose telephone number is 571-272-1509. The examiner can normally be reached on M-T, 6.30-5.00.
